September 8, 2008

Dear Parents/Guardians,

With the new school year underway and many of our students now driving to and from school, I am writing this letter to remind parents of the NJ Provisional Drivers License Laws. With the excitement of new driving privileges, the element of temptation may exist for new drivers overlook the limitations of their driving privileges. Considering this, it may be a great time to review the rules governing a provisional license with your son or daughter. For your convenience, I am providing some of the Provisional License restrictions in bulleted form below. Of course, these restrictions are in effect at all times for new drivers. The NJMVC issues a Provisional License to all drivers during their first year of driving.

According to the State of New Jersey Motor Vehicle Commission:

You must observe the following requirements and restrictions while driving with a provisional license:

- No driving between 12:01 a.m. and 5 a.m.
- Passengers must be from your household. Only one additional person from outside your household is allowed in the vehicle.
- You can't use cell phones, hand held video games or any other hand held electronic device.
- Seat belts must be worn at all times.
- See [GDL Exemptions](#) (on the NJ MVC web site) for hours-related exemptions for employment or religious reasons.

Additional and more thorough information on New Jersey Drivers Licenses and Driving Privileges can be found at <http://www.state.nj.us/mvc/Licenses/EarlyBird.htm>. Also, please be aware that the Montville Township Police Department will enforce these provisional license regulations and will ticket those who are in violation of them.

I appreciate your time and dedication. If you have any questions, please do not hesitate to contact me.

Sincerely,

Martin Wall
