

Dear Parent/Guardian of :

Now that your student at Robert R. Lazar Middle School has his/her Student ID card, we would like to give you some information on how to use the card in the cafeteria for the lunch program. With the assigned ID number, you will be able to deposit money into an account for your child, using either a program called Mealpay Plus or by a check taken to the cafeteria. Cash is accepted also, but we don't recommend it if you are going to send in a large amount of money.

As the parent/guardian you will be able to access a website and/or use the phone number provided to deposit money to your child's account. There is a fee for each transaction made on Mealpay Plus but none if you send a check to the cafeteria. Please note that if you send a check or a large bill with your child we will not give change. All checks and large bills will be credited to your child's account.

For every onetime \$100 deposit in your child's account you will receive a bonus equal to one standard lunch - value \$2.75. This amount will show up automatically in the account.

Below we have listed your child's ID number, the PIN number you will need to use for the website and the website address. The first time you go on this site you will need to register to use it. We have also provided the phone number that is set up for your use.
